THE KING'S WORDS OF LAW

June 9 Kuya Pastor Jec

"If your Christian conversion did not reverse the direction of your life, if it did not transform it, then you are not converted at all. You are simply a victim of the 'accept Jesus' heresy."

-AW Tozer

WITHOUT THE LAW, THERE WILL BE NO BASIS FOR JUDGMENT.

Job 38

Everything in the natural realm operates according to the inherent (built-in) principles.

As God's creation who are made in His image, we follow Jesus' pattern. We operate according to His guidelines; We function according to His design and intention.

The Kingdom of God, like any other government, has laws that operates everything.

These laws were established from heaven, implemented on
earth.

Even before the creation of man, God has intended laws in all things to maintain order.

Kaya naman, walang nangyayari na walang dahilan.

Kung ang lahat ng mga inaaral natin ay itatatak natin sa ating mga isipan at uunawaing maigi, doon nadadagdagan ang ating pagkilala at banal na pagkatakot (reverence) sa Diyos.

Do not question nor challenge God and His ways. Rather, seek Him and ask the purpose of whatever you are going through.

Those who complain more, know less about God and His ways.

The King's word is law in His kingdom. Laws are built-in into creation.

Walang nilikha na walang batas. Sapagkat sa lahat ng nilikha ng Diyos ay may kalakip na layunin.

God intended law is to be **"Natural"**

We should not see it as a restriction to our freedom.

To understand the Kingdom of Heaven we must understand the distinction between the Natural Law and the Written Law:

NATURAL LAW **vs** **WRITTEN LAW**

-It should have been Inherent Natural Law is absent. the beginning.

-Necessary only when (built-in) in us since

- Its purpose is to restore the Natural Law into our

conscience
(this is where we decide
and choose which is
right or wrong)-

-It is sometimes referred to as
the “spirit of the Law.

The spirit of the law refers to the original intent – the purpose that was in the mind of the Lawmaker in the beginning.

For this reason
The greatest form of law is the unwritten law.
It is the product of the spirit of the law.
WITHOUT THE SPIRIT, THERE IS NO LAW.

Written Law is a sign that
people have lost sight of
the Natural Law.

There is no society or country that has no law. Any society or country can be identified based on its law.

The Natural Law is the fundamental operating principle of the Kingdom of Heaven.

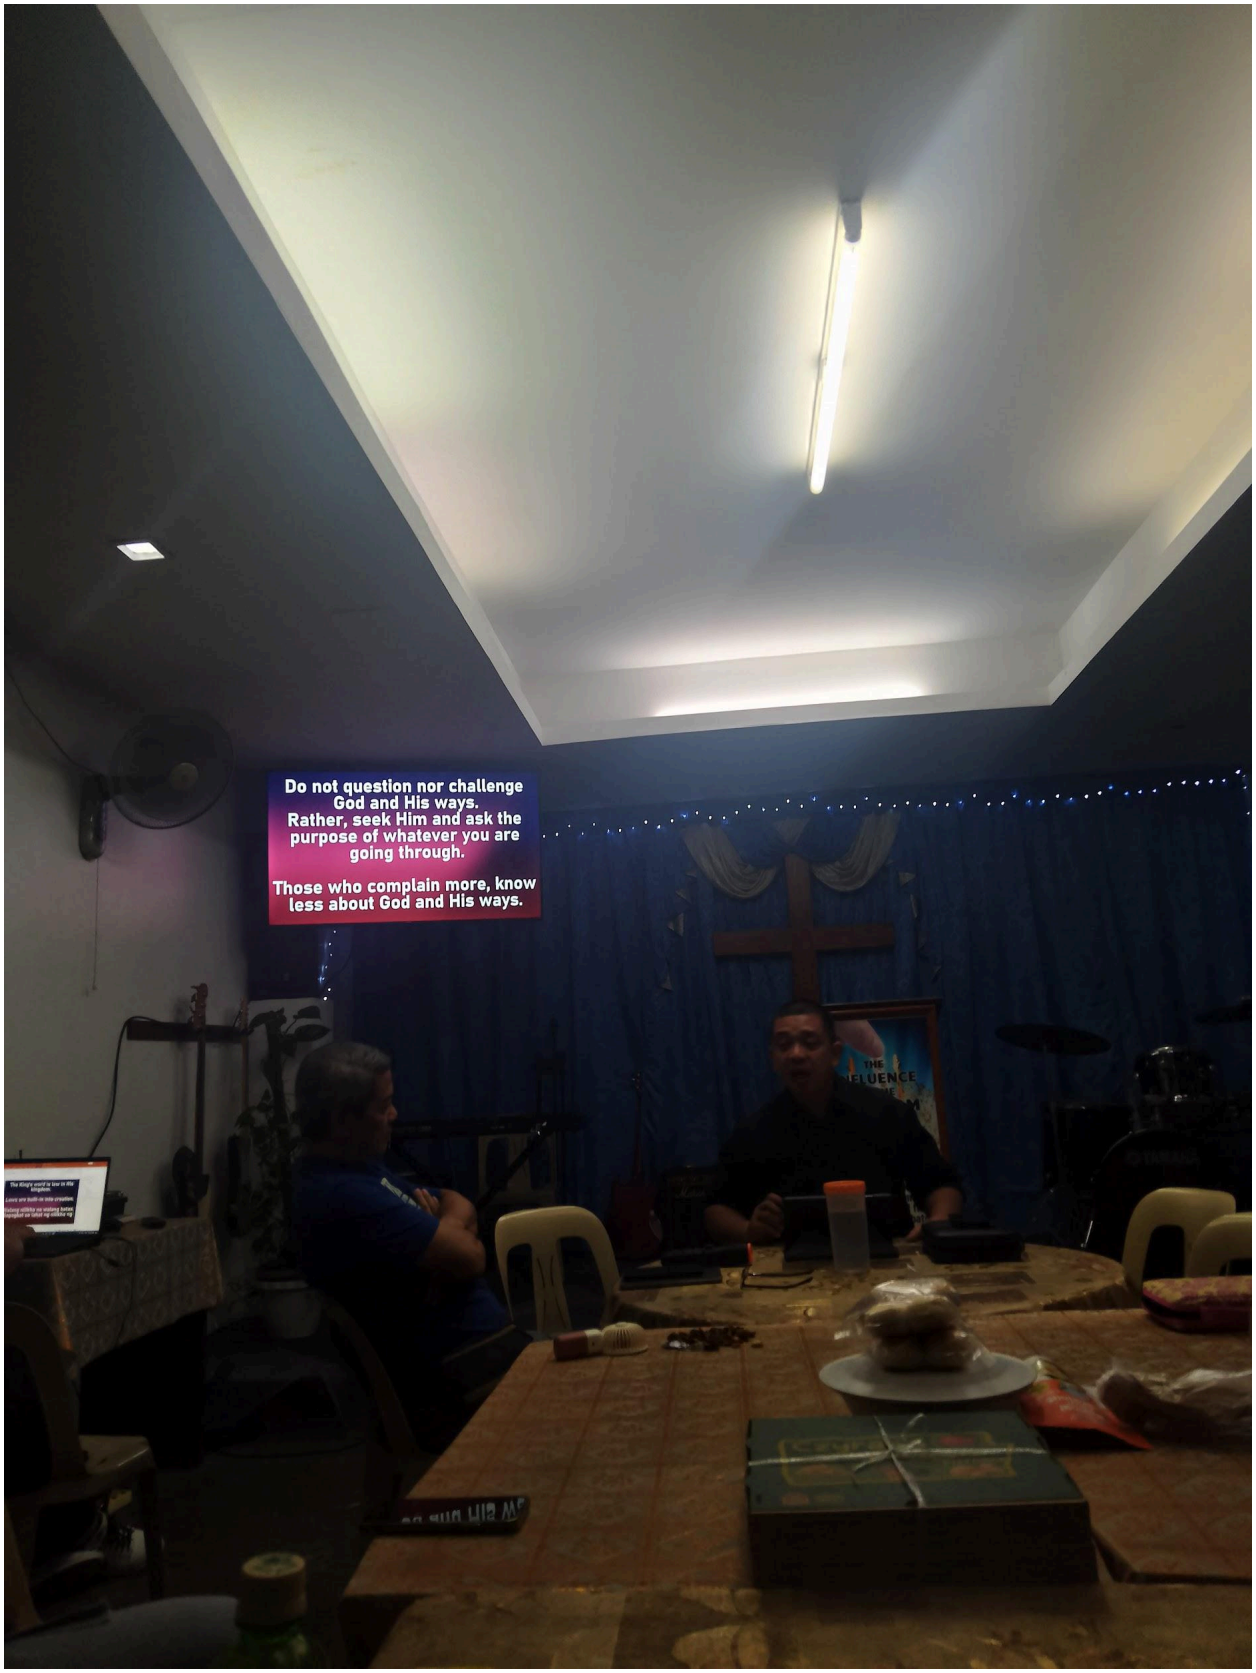

We must understand the keys of the Kingdom of Heaven to unlock the privileges and manifest in our lives.
