UNDERSTANDING THE FREEDOM

Tatay Pastor June 8, 2025

Luke 4:14-19
Genesis 1:26

Freedom was not invented by humans, but it was given to man.

Humans do not invent freedom, but it was given to man. God has given man freedom to fulfill his assignment. (to have dominion , to manage and rule on earth)

Ay ipagpatuloy iyan yung passion niya at yung kanyang pagnanais na ang kalayaan na ito ay patuloy niya na ito exercise

Freedom is a biblical concept or idea introduced by God Himself as the very essence and purpose of man's existence.
-exists and has been given for man to be responsible for fulfilling any assignment that God has entrusted to him.
-is connected to responsibility, and decision-making.

Application of FREEDOM
-Is the liberty to fulfill God's will in serving others with the gift of that purpose ,without restricting or controlling another while that person fulfills his or her purpose and serves you.
-True freedom is self-discovery of one's personal purpose.

FREEDOM is not the creation of a new social status given to an underprivileged/disadvantaged, but rather a natural restoration to the normal state of what it means to be a man.
